Dear Ms. Torres,

I am writing in support of the NOSB's recommendations for pasturing standards for the NOB. It is my h

Yours truly,

hope that farm animals would be treated more humanely with adequate pasturing and availability to natur

ral sources of nutrition from sunshine and grasses. There is no artificial substitute that comes close to tl

he benefit these provide. I fully support their efforts to establish not only more humane treatment of our

animals, but to increase the bio-availability of our nutrients through utilization of God-given standards (p

perfect sources) of nutrition for our livestock. I fully support the efforts of this organization and ask that y

you would support this recommendation
